

# STYLING TIP

## BOOKS AND A TOPPER

One of the easiest styling tricks you can do to create a vignette or display is to arrange a small pile of books and top them with a decorative object. You will see this styling recipe used again and again in blogs and magazines.

### BOOKS AND A TOPPER

#### Books:

- Get 2-5 books
- Choose spine and book cover colours that work together and with the colours in your room.
- Arrange the books in a pile from largest at the bottom to smallest at the top.

#### Topper:

- Choose 1-2 decorative objects that you can display on the pile of books.
- The object(s) should be narrower than the smallest book
- Round and curved objects contrast against the horizontal straight lines of the books
- Toppers include: candles, figurines, coral and shells, vase/jars of flowers, boxes, ginger jar or a cloche.
